ANATOLIAN HIGH SCHOOL

SKILLS

- Project Management
- Public Relations
- Teamwork
- Time Management
- Effective Communication
- Critical Thinking
- Attention to Detail
- Problem Solving

LANGUAGES

- Turkish (Fluent)
- English (B2-C1)

PROFILE

I am a backend-oriented software developer with a keen interest in internet technologies such as web servers, networking, ports, and Linux systems. I enjoy understanding the inner workings of how the web operates and take pride in building efficient, scalable web solutions.

Driven by curiosity, I continuously strive to expand my technical skills and stay up-to-date with the latest in software development. Beyond programming, I have a strong passion for learning—currently, I'm studying Russian and enjoy reading books in my spare time. For me, learning is a lifelong journey, both in technology and in life.

WORK EXPERIENCE

- GURU Sistem Yönetim ve Yazılım** 2024 - 2025
IT Employee
 - Monitored server performance, resource usage, and service status using system tools and dashboards.
 - Managed user permissions across various internal servers to maintain access control and security.

TECHNOLOGIES

Languages	Frameworks & Libraries	Databases & Cloud	Tools & Platforms
C#	ASP.NET Web API	MySQL	Docker
Java	Spring Boot	MSSQL	Git
GO	Laravel	SQLite	Github
C	Next	PostgreSQL	Postman
Javascript	React		Linux
SQL	Express		
PHP
